PROFILE

Driven Associate Software Developer with Proficiency in Java and Spring Boot. Demonstrated Experience in Developing and Optimizing Scalable Applications. Dedicated to Continuous Improvement and Effective Collaboration in Dynamic Team Environments. I am deeply motivated to take on new challenges, collaborate with cross-functional teams, and leverage my technical skills to solve complex, real-world problems.

PROFESSIONAL EXPERIENCE

June 2024 - Present

Cloute Technologies Pvt Ltd | Associate Software Developer

- Passionate Software Developer with 6 months of hands-on experience in developing robust applications using Java and Spring Boot. Proven track record in optimizing performance and enhancing user experience through collaborative project work. Eager to leverage my skills in a dynamic environment to drive innovative solutions.
- Developed and maintained modules in an indent management system using Java and Spring Boot.
- Managed MYSQL database design including schema creation and execution of complex queries.
- Build RESTful APIs with global exceptional handling and generated customized PDF reports.
- Collaborated with cross functional Teams to ensure timely project delivery and system performance optimization
- Designed and implemented microservices architecture with clients for the efficient service communication.

Cloute Technologies Pvt Ltd | Software Developer Intern

Jan 2024 - May 2024

- Developed and implemented an Employee Master Module using Spring Boot, with a strong focus on ensuring high code quality and optimizing performance.
 - Optimized API integration, driving a 30% improvement in data interaction speed between services by refining data flow and implementing performance-enhancing techniques
 - Managed SQL database integration to ensure efficient data storage, retrieval, and management, optimizing performance and scalability.
 - Designed and implemented backend logic and user interfaces, ensuring seamless functionality and an intuitive user experience.
-

TECHNICAL SKILLS

- Back End: Java
 - Framework: Spring Boot, Spring MVC
 - Tools / Platforms: Spring Tool Suite, Eclipse, Postman, Git & GitHub, Xampp
 - Data Base : MYSQL, SQL
 - Front End: HTML, CSS
-

SOFT SKILLS

- Team Work
- Collaboration
- Adaptability
- Time Management
- Leadership

PROJECTS

Sports Club Management System

- A Sports Club Management System is a software application designed to help sports clubs efficiently manage various operations related to club members, events, finances, and activities. The system typically automates tasks such as membership management, event scheduling, payment processing, and more, making it easier for club administrators and members to interact.
- Designed and optimized MySQL database schemas, improving data storage efficiency, streamlining retrieval processes, and enhancing overall system performance.
- Designed and implemented RESTful APIs, facilitating real-time data synchronization and ensuring seamless communication between front-end and back-end components.

Employee Master

- Developed and implemented an Employee Master Module using Spring Boot, with a strong focus on ensuring high code quality and optimizing performance.
- Optimized API integration, driving a 30% improvement in data interaction speed between services by refining data flow and implementing performance-enhancing techniques
- Managed MySQL database integration to ensure efficient data storage, retrieval, and management, optimizing performance and scalability.
- Designed and implemented backend logic and user interfaces, ensuring seamless functionality and an intuitive user experience.

EDUCATION

Dr. G.R Damodaran College Of Science

Degree in Master of Computer Application

CGPA : 8.58

Nallamuthu Gounder Mahalingam College Of Arts & Science

Degree in Bachelor Of Computer Application

CGPA: 6.5

CERTIFICATION

Internship Certification in Software Development

- Gained hands-on experience and in-depth knowledge of Spring Boot, Spring MVC, Java, and other key technologies. Developed practical skills in building, optimizing, and deploying Java-based web applications, contributing to various projects under professional guidance.
- Managed SQL database integration to ensure efficient data storage, retrieval, and management, optimizing performance and scalability.
- Designed and implemented backend logic and user interfaces, ensuring seamless functionality and an intuitive user experience.
